1. General information

This data protection declaration provides you as a fan, member, season ticket holder, contact of an organisation or company, event participant, user of our online media or as our customer who purchases or uses VfL Wolfsburg products and services with information on how your personal data is processed.

1.1 What is personal data?

1.3 What does processing of personal data for the purpose of business operation include?

VfL Wolfsburg processes personal data for the purpose of various business operations. For instance, this includes areas such as the sale of tickets, merchandising, memberships, events, general advertising or online media (VfL Wolfsburg's website or email newsletter, etc.) that are outlined in detail in Clause B.2 below. Each of these business operations is implemented for at least one purpose. In case of the purchase of a VfL Wolfsburg product, this may be delivery and payment or, in case of events, for example, conducting of the event in question. Moreover, any operation through which personal data is processed has a basis in law, e.g. the need to prepare or perform a contract (Art. 6 (1) (b) GDPR) or the need to comply with a legal obligation to which VfL Wolfsburg is subjected (Art. 6 (1) (c) GDPR). In these instances VfL Wolfsburg will give information if an obligation on the basis of contract or law exists. Refusal to provide the data may lead to loss of an otherwise existing legal position or the impossibility to conduct the contract in the aspired form. Additionally, data is processed on the basis of a legitimate interest of VfL Wolfsburg following an appropriate balancing of interests (Art. 6 (1) (f) GDPR) or on the basis of consent (Art. 6 (1) (a) GDPR).

1.4 How long will VfL Wolfsburg store personal data?

We will process and store your personal data for as long as it is necessary for the fulfilment of our contractual and statutory obligations. It should be noted that in the case of a season ticket contract, our business relationship is a continuing obligation over a number of years.

Data no longer needed for the fulfilment of contractual or statutory obligations is regularly deleted, except when further processing, such as storage is required – for a limited period - e.g. for the following purposes:

- Compliance with the retention requirements stipulated in commercial and tax law: this includes the German Commercial Code (HGB), the German Fiscal Code (AO) and the German Money Laundering Act (GwG). The retention or documentation periods specified therein are between two and ten years.
- Preservation of evidence in accordance with statutory limitation periods. According to sections 195 et seq. of the German Civil Code (BGB), these limitation periods can last for up to 30 years, though the standard limitation period is three years.

In these cases, we may store and, if necessary, use your data for a duration appropriate for these purposes even after our business relationship or our pre-contractual legal relationship has ended.

2.1. Tickets and merchandising

2.1.1. Day ticket/season ticket and fan merchandise

When you purchase a day and/or an (away) season ticket for public and VIP areas or purchase merchandise, as your contract partner, we will collect your name and address, your gender in order to identify and address you correctly, and – where applicable – your customer number (optionally also your telephone number) as well as your payment information for this transaction. We provide you with further information on payment details in Clause B.1.5 and B.2.6.

When you make a purchase via our online shops, with your VfL account or as a guest, we will also request your email address so that we can send you your order confirmation. We require your data in order to produce tickets, for merchandise and payment. This data is thus necessary for the execution of the purchase contract that has been concluded (Art. 6 (1) (b) GDPR). This includes season ticket subscription contracts and sponsorship contracts where a ticket or fan merchandise quota has been agreed. We will also notify you of any changes relevant to your contract, such as the price of season tickets for the new season. We will store your data in our system and record you as a contact in our system, including a personal customer number that we will communicate to you.

In order to grant discounts and to ensure that children are appropriately supervised, for discounted tickets for children up to the age of six or 15 years old, we will also request the date of birth of the ticket holder/user. Further discounted rates may also be claimed according to the ticket price list. Here, we will merely register an entitlement to a discount rate and not the specific reason thereof.

When you purchase daily passes or fan merchandise through our ticket booths on a match day or through our fan shops, your data will generally only be recorded if you wish to claim a discount as a member, for instance. You will find more information on membership in Clause B.2.2.

If you have purchased an away season ticket and thus have a guaranteed right of first presale for tickets for our away games, we will always request your email address, your date of birth and, where applicable, your customer number. Before every away game, we will ask you by email whether you wish to make use of your right of first presale.

If a season ticket subscription for our home matches consists of more than one season ticket, by selecting the “personalised season ticket” option, we will also collect the name and address of other ticket holders who are not our contract partners/subscription holders. If that ticket holder does not have full legal capacity, we will also collect the same personal data for a parent or legal guardian. Pursuant to Art. 14 GDPR, each ticket holder or his parent or legal guardian must be notified in writing – indicating the name and address of the subscription holder – that the aforementioned data has been provided to VfL Wolfsburg to issue a season ticket. VfL Wolfsburg will notify ticket holders of this following the conclusion of the season ticket subscription contract.

A service provider finishes football shirts on our behalf. If you would like your name printed on your football shirt, we will send this to our service provider for flock printing.

2.1.2 Replacement of match-day tickets and upcharge

If you wish to transfer your match-day ticket or your season ticket to a third party along with the associated contractual right to enter the stadium, you may request the production of a replacement match-day ticket through our online ticket shop. If this third party is not eligible for the discounted rate associated with your ticket, an upcharge can be paid, which will be taken into consideration when the replacement match-day ticket is issued. Payment information (see Clauses B.1.5 and B.2.6) will be requested for payment of the surcharge and for any fees arising.

2.1.3 transfer of tickets through the VfL ticket exchange platform

If a season ticket is successfully sold through the VfL ticket exchange for a specific match day within the scope of fulfilment of the season ticket subscription contract (Art. 6 (1) (b) GDPR), the ticket holder will be credited a portion of the overall price. This will be either in form of a voucher, or this amount will be credited to the ticket holder’s bank account. Depending on the form of reimbursement chosen, VfL Wolfsburg will also register the payment information of the season ticket holder for this transaction.

2.1.4 cashless payment within Volkswagen Arena

To access the services provided in the Volkswagen Arena you can use the VfL-Card, any bank card and your phones. The service provider Ingenico payment services GmbH is responsible for any transaction in question and processes any accruing personal data, such as the credit card and corresponding account information, the transaction account and if needed the customer's signature. The information is necessary to ensure a smooth transaction and payment of the concluded contract about the acquisition of goods as stated in Art. 6 (1) (b) DSGVO.

The login details for your personal VfL account (see Clause B.2.10.2 for further details) are required for identification purposes in order to top up your VfL Card (girogo "GeldKarte") with credit through our online shop. The system will subsequently request your ten-digit card number to ensure that your card is correctly topped up. The process of topping up a card and using it in the stadium is generally anonymous. In this case, we will only register your card number and the top-up/payment amount. If you pay your top-up amount by direct debit or credit card, we will register your payment information for this transaction and transfer these details to our payment service provider for completion of the transaction. We require this information for the execution of the contract concluded for the purchase of the VfL Card's credit and the related payment (Art. 6 (1) (b) GDPR).

When you use your VfL Card for payment at the stadium kiosk, we will register the sales receipt and the number of the card used. VfL Wolfsburg is the system operator, while our stadium caterer is your contract partner.

Generally, all sales are processed anonymously. Our catering system processes exclusively card numbers and their corresponding receipts. Your personal data generated by your purchase through a VfL-card as a members' card is stored in a separate ERP/information system. Merging the data is partly possible but will be refrained from except if its is necessary to produce a hospitality receipt on your request. If, after visiting our stadium, you request a receipt for hospitality expenses in connection with any purchases you have made, we will register the following data in order to issue you with your receipt: name, address, card number and your specified payment date. To provide you with a receipt more quickly, at your request, we will also register your email address. We will transfer your data including the transaction breakdown to the stadium caterer in order to issue a receipt for hospitality expenses and provide you with this.

2.1.5 Legal action with regard to unauthorized ticket resales

The resale of our match-day and season tickets on the unauthorised secondary market is prohibited according our General Ticket Terms and Conditions and violates the terms and conditions of the purchase agreement concluded. These regulations are not only issued and obeyed by VfL Wolfsburg but also by other clubs we are competing with. To detect, investigate and prosecute we not only communicate with other clubs

VfL WOLFSBURG

about the responsible people behind the sales, we also have authorized a law firm to discover, pursue and take legal action against any violations. In case of any suspicions, VfL Wolfsburg will provide this law firm with the name, postal address, email address and, where applicable, the telephone number of our contract partner, so that further action can be taken. Moreover, the data for the ticket that has been unlawfully offered online will be registered as evidence on the basis of a balancing of interests pursuant to Art. 6 (1) (f) GDPR. In particular, this includes the assertion of legal claims, the warranty of stadium safety (fan group separation, assertion of prohibitions to enter the stadium) and maintenance of a social pricing structure.

2.1.6 free autographs

We will register your name and address as the recipient for any order of free signed autographs (three autograph cards per person per season). We will process this data so that we can send you these signed autographs without any problems. Moreover, as part of processing this data, we will document the date on which we received your request, the date on which we sent the relevant signed autograph to you and which signed autographs (i.e. which VfL players) you have been sent.

This is to avoid duplicate orders that exceed the contingent to which each fan is entitled and to ensure that each fan is able to receive signed autograph cards free of charge once a year.

2.2 Memberships

Membership of our “WölfeClub” or “WölfiClub” offers you a large number of benefits and services, e.g. discounts and exclusive club events. In return, parents and legal guardians pay a WölfiClub membership fee for their children, while adult members pay a membership fee for the WölfeClub. When you sign up for a membership, VfL Wolfsburg will register your name, address and date of birth (and, in case of an online application, your email address) for the classification and recording of your membership status and for the issuing and handover of your personalised, non-transferable membership card and your welcome package. We also record your gender in order to identify and address you correctly. If you provide us with your telephone number (mobile and/or landline number), we will also be able to contact you this way. For payment of your annual membership fee, your payment information (in this case, specifically your account details such as your IBAN and BIC) will be processed and transferred to our payment service provider. In case of minors, we will also request the name, address and payment information (cf. Clause B.2.6) of a parent or legal guardian.

In regard to the “WölfiClub”, the welcome package includes a t-shirt. For this reason, we also require your child’s clothing size. This data is thus necessary for the preparation and fulfilment of the membership contract pursuant to Art. 6 (1) (b)

GDPR. VfL Wolfsburg will administer your data within its systems and notify you of your membership number. Your membership number and name will be printed on your membership card so that you can claim your advantages and discounts from our cooperation partners.

Through the “Members’ board” initiative of the “WölfiClub”, in return for a fee, a member can display his details on a permanent small sign on the membership board in the Volkswagen Arena and thus show that he is a VfL Wolfsburg fan. The name of the member and further information (place of residence, date on which the member joined the club and the member’s favourite player) will be printed and hung up here. If you object to the publication of your sign on the member’s board, we will remove it. Please send us your objection, with “Objection Member’s Board” in the subject line, using the contact details provided under Clause E.

In order to send you material from the club and members’ information (“WölfiClub” magazine, “WölfeClub 55plus programme”, etc.) by post, we will forward your name, membership number and address to a service provider that will handle the printing and mailing process for us

2.3 Events and activities

VfL Wolfsburg organises a wide range of events and activities, such as children’s events (“VfL-KidsDay”, “Mini-Wölfis”, the opportunity to act as a match mascot, children’s birthdays, etc.), “WölfeClub 55plus” events or the home game experience (where you get a closer look behind the scenes of a match day), training camps for the VfL football school, the VfL writing competition, VfL Kick-Off, VfL-FußballWelt events, guided tours of the arena as well as other events that require registration.

For minors, we will also request the name, address and, where applicable, the payment information of a parent or legal guardian. Please note that for this purpose, you would need to provide your consent for us to process health data such as this pursuant to Art. 6 (1) (a) GDPR. As outlined in Clause C, you may revoke this consent at any time.

VfL Wolfsburg requires the aforementioned data to be able to conclude a contract with you to enable the planning, implementation, billing and evaluation of an event. We will register your aforementioned contact details to be able to confirm your registration, in case of any queries or to provide you with further information on the program or any last-minute changes. We record a telephone number in particular for children's events where the parent or legal guardian is not present, so that they can be contacted immediately in the event of an emergency. Some events are for members only, are discounted for members or for specific persons, or are intended for certain age groups. For some events, you or your child will receive clothing such as a t-shirt or football shirt that should fit well and will feature your chosen lettering. If you hand your child over to our childcare service while you watch a VfL game, we will also request your seat number to ensure that we are able to contact you in case of an emergency. When registering for VfL football school camps, we will request the participant's playing position so that we can take this into consideration when putting together teams. We will also register the name of your football club, since players from our partner clubs will receive a discount on the registration fee.

Forwarding of data to third parties and publication:

The personal data of pupils participating in the VfL writing competition will generally not be registered. The sole exception here is the publication of the names of the winners on our VfL-Wiki site (our online knowledge platform for pupils). Please see Clause C of this data protection declaration for further details on the revocation process.

For the “Home Match Day Stadium Child” event series we will forward the name of the “stadium child” (the winner of the promotion) to our event partners, Autostadt GmbH, and to our partner radio station. The partner radio station requires the name, age and town of the “stadium child” for its public reporting. We will obtain consent within the meaning of Art. 6(1) (a) GDPR for this purpose when the child is registered for the promotional event.

Participants will be notified of the forwarding of this data during the registration process. We will forward your name and address for invoicing purposes to caterers who provide food and drink at our events and activities at their own expense. However, we will only do this if you are an invoice recipient. We will generally already notify you of this during the registration process but will do so at the latest before we forward your data.

Specific Business operations:

In order to be able to participate in the walking football sporting activity, when you register, you will be required to provide a statement from your doctor confirming your physical fitness. We offer this sport to our WölfeClub members aged 55 and above. Your health is very important to us and it is essential for us to ensure that you do not damage your health by taking part. We also want to be able to help or assist you quickly in an emergency. Therefore, we store the information about your health that you provide voluntarily when you register, e.g. about allergies, medicines and conditions for the duration of your participation in walking football. When we rent modules we transfer the data to the provider of the module, who is responsible for the delivery and installation on site.

Personal data will only be collected if you opt to notify us of these for the fulfilment of the contract for your visit to VfL-FußballWelt. For this purpose, you can create a profile at the counter and associate the chip number of your RFID bracelet with this. You can use the RFID bracelet that we will provide you with to identify yourself at certain activity points. No personal data will be stored on this RFID bracelet. All of the data that you provide and your performance data will be stored in encrypted form on our servers in your profile for subsequent retrieval. This data can be retrieved over the internet, using your individual URL. To protect your data against third-party access, your first and last names are required as well as your personal URL for access to your data. Your data will be automatically deleted after a period of seven days. Your data will not be passed on to third parties.

In case of invoicing, your name and billing address will also be requested. This applies not only for group inquiries but also for all of our VfL-FußballWelt services/offers.

To provide our services, we will save your name, email address and date of birth as an OFC member. Providing your address and telephone number is optional. The aforementioned data is required for this purpose. The OFC will provide us with its members' data at the start of each season and the second half of the season. This ensures that the data is updated and also deleted.

When you contact our Fans department or Service Centre, our staff will ask for and store your name and possibly also your telephone number and/or email address in order to process your enquiry (service contract within the meaning of Art. 6(1) (b) GDPR). Once a year, the employees of our Fans department will review whether your contact details are required for the abovementioned purpose. If this is no longer the case, your data will be deleted.

In order to provide personalized car parking and wheelchair access, tickets at the stadium on home match days, we process the name and address of the person making the request. Only in exceptional cases is it possible to drive right up to the stadium past the security gates. We therefore require a medical certificate and the vehicle registration number to issue a security pass. The medical certificate contains particularly sensitive data about your health, so in order to process it we need your consent in accordance with Art. 6(1) (a) GDPR. We consider that you grant your consent when you send us the certificate. You can withdraw your consent at any time.

2.5.3 special and additional train journeys

Our fan department will organise special and/or additional trains as necessary. As well as tickets for the away match, our fans can also purchase train tickets from us. This applies in particular to the code of conduct that applies during the train journey, for any damage claims in case of any damage identified in the allocated train compartments and handling of image rights.

Within the scope of fulfilment of the contract (Art. 6 (1) (b) GDPR), the name, address, payment information (see Items 1.5 and 2.6) and the email address of the

person placing the order will be collected. The names and email addresses of any accompanying persons will also be collected. All of the aforementioned data will be deleted following the organisational completion of a special and/or additional train journey.

The applicant's name, email address and telephone number will be collected for registration purposes. The players' names and dates of birth will be collected from the team members. Whether we are allowed to take photos and/or record video footage of you during the event depends on your consent, which you can provide when you register. All of the collected data will be deleted once the event has ended. Any further processing of images and/or video footage will be in accordance with the declaration of consent provided (Art. 6 (1) (a) GDPR), which you may revoke at any time.

2.5.5. Support for away fans

As part of the support that we provide for away fans and communication with the away team's football network (consisting of the club, the city and the police) on home match days, our Fans department requires the contact details of officials/contacts for handling various fan-related issues. The following data is required to communicate with the football network: function, name, telephone number and email address. This data will be forwarded within VfL Wolfsburg and to the relevant partners in Wolfsburg's football network. Names and vehicle registration numbers will be collected for the purpose of controlling access for away fans. This data will also be forwarded to the Wolfsburg police. Within the scope of a balancing of interests (Art. 6 (1) (f) GDPR), it is necessary for us to process your data to safeguard legitimate interests of ourselves and of third parties. For security reasons, we are obliged to ensure that the two groups of fans remain separated and thus also to ensure transparency for the police in terms of the details for away fans' arrival. The football network must be able to plan the fans' arrival and to make rapid arrangements in case of any incidents on match day.

The data collected for external partners will be saved for any future cooperation. The data collected from away fans will be deleted once the event has ended.

2.5.6 complaints management

We will register and save any complaints that we receive in our Service Centre and analyse them to improve the quality of our operational processes. We will contact you if it is not possible to complete this payment transaction, e.g. because you have insufficient funds in your account or we have not received notification from you of a change to your payment information, or you currently have an amount outstanding to us. If we are still unable to reach you as of our third attempt within the scope of this reminder procedure, we will be forced to assume that you do not wish to be contacted. The respective purposes are in our legitimate interest. You are referred to your right to object defined in Art. 21 GDPR.

2.8. Sponsorship/licensee, supplier and merchant contacts

Execution of contractually agreed services, such as the implementation of advertising services or the organisation of customised events, may entail processing of personal data (pursuant to Art. 6 (1) (b) GDPR) within the scope of provision of the required service(s). VfL Wolfsburg notifies the contract partner in advance about the type, scope and purpose of the data processing, e.g. when contractually agreed advertising materials, season tickets or seats in the stadium are personalised (with a company or individual name). If the data required exceeds the name and the address of the contract partner (in the case of legal entities, the details of contacts will be recorded), VfL Wolfsburg will notify the contract partner of this in writing in advance. The contract partner's separate consent will be required for provision of the required service. An objection to processing at this time may result in an inferior service or even non-fulfilment of the contractually agreed obligation. Compensation claims may not be asserted in this respect.

VfL Wolfsburg administers the contact details of sponsors, licensees, merchants and suppliers in its ERP/information systems as creditors for the supply chain process. For this purpose, processing the name and contact details of contacts (such as email addresses and telephone numbers) is required within the scope of fulfilment of the contract pursuant to Art. 6 (1) (b) GDPR.

2.9 raffles and surveys

If you wish to take part in a raffle, the following data must be processed for the performance of the competition contract (Art. 6 para. 1 lit. b) GDPR): We use your name, address, date of birth and, if applicable, your email address or telephone number for the purpose of running the raffle, in particular for the purpose of notifying you of the prize, sending you the prize and any age verification. This data regarding the raffle is processed on the basis of consent (Art. 6 para. 1 lit. a) GDPR) and for the fulfilment of a (raffle-) contract (Art. 6 para. 1 lit. b) GDPR). You will find

detailed information on data processing in each specific case in the terms and conditions of our craffle.

For individual competitions, we also work together with service providers who process the competition for us.

It is perfectly possible to visit VfL Wolfsburg websites without giving us any information about your identity. In this case, we will only automatically collect the following log data:

- An anonymous cookie ID that does not enable the identification of your IP address (different requirements, which are indicated in Clause B.2.10.3, apply for the use of our email newsletter, which are referred to in the aforementioned item).
- The operating system and web browser you are using, and your selected screen resolution
- The date and time of your visit
- The (sub-)webpages you visit on our website
- The website from which you visited us

When first visiting our website, we will ask for your consent regarding performance cookies and cookies of third parties. By clicking the “okay” button you consent to the use of third party cookies. This consent can be revoked at any point with effect for the future pursuant to Clause E. By accepting the terms displayed on our cookie banner you consent to the following tracking measures (Art. 6 (1) (a) GSGVO). You can always revoke your consent by using our cookie consent manager. It is noted that the withdrawal does not negotiate the legitimacy of the processing in the time before the withdrawal.

Specific tracking measures:

Google Tag-Manager

We use Google Tag Manager to administer each tracking measure. The tool Tag Manager itself is a cookie-less domain and does not collect personal data in itself. The tool does trigger other corresponding tags, which may then collect personal data. Google Tag Manager does not use this data. If a deactivation on a domain or cookie level is initiated, it remains for all existing tracking-tags which were implemented

VfL WOLFSBURG

with Google Tag Manager. For more information see <http://www.google.de/tagmanager/use-policy.html>

Google Ads

We integrated the service “google ads” on our website. Google ads is a Google Ireland Limited service which aims to provide users with targeted advertisement. Google ads uses cookies and other browser technologies to analyze user behavior and to recognize users. Google ads collects information on visitor behavior on different websites. This information is used to optimize the relevancy of the ads, especially to show targeted ads for our products on different websites within the Google network. This involves e.g. Google search and other Google- or Google-daughter operated sites as well as sites from Google webpartners. The information is thus conveyed to Google and its partners. Further processing only happens if you consent to Google that your Google browser history may be linked to your Google account and information from that Google account may be used to personalize shown ads. Google ads also provides targeted ads on basis of behavior profiles and geographical location. Your IP-address and other identifying features like your user-agent will be submitted to our service provider.

If you are registered with a Google Ireland Limited service, Google ads can link your visit with your account. Even if you did not register or log in, the service provider may still see and save your IP-address and other identifying features. In this case your data will be shared with the operator of Google ads, Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Irland. Please note that processing through Google LLC located in the US is also possible. Please see information on processing your personal data through google at <https://policies.google.com/privacy?hl=de>.

Google Analytics

Google Analytics is a Google Inc web analyzer service. Data processing will be used for advertisement, market research or a needs-based design of our website. The information produced through Google Analytics Cookies about your use of our website will generally be submitted and saved to a Google server in the US.

The thus transmitted IP-address will not be merged with other Google data. We also extended Google analytics on the website with the code „anonymizeIP“. This guarantees the masking of your IP-address to ensure that all data is processed anonymously. Only in exceptional cases will the full IP-address be submitted to a Google server in the US, where it will be shortened nevertheless. Google will use this information on our behalf, to evaluate your usage of the VfL-websites, to gather reports about your website activities and to perform other services linked to website and usage and internet usage. To prevent your data being stored you can opt to change your cookie settings accordingly. Please note that this may result in limited usage of

the available website functions. Additionally, you can prevent processing of data to google and the processing by google by downloading and installing the following Browser-Plug-in <http://tools.google.com/dlpage/gaoptout?hl=de>.

Google analytics is used in accordance with the preconditions set by the German protection offices.

Meta „Pixel“ / „Custom Audiences“

We implemented the “Conversion-Pixel“ / „Meta Custom Audiences“, a service provided by Meta Platforms Inc., 1601 S. California Ave, Palo Alto, CA 94304, USA (“Meta”), to produce so called Custom Audiences, to segment visitor groups for our online presence and to calculate and thus optimize conversion rates, especially when you interact with ads specifically shown in cooperation with Facebook Ireland Ltd.

A Java Script-Code is used to initially save personal data about the usage of the website. This includes your IP-adress, the used browser in question and the start or final website. It will check for saved Meta-Cookies, if you are among the targeted people, Meta will show you our ads correspondingly. Note in no case, either through meta or us, you will be personally identified.

Through the usage of pixels in your browser, meta can recognize, if a Facebook-ad was successful, e.g. if following the ad, a contract was concluded online. Meta will provide us with the statistic data without reference to a specific identity. This enables us to analyze the ads’ effectiveness for statistic and research purposes.

Please note, that in this context the possibility of processing by Meta Platforms Inc, located in the US, may occur.

The meta "conversion pixel" pixel is also connected to Google Analytics (see above) in such a way that data from the meta "conversion pixel" pixel can be enriched with data from Google Analytics.

AWIN „Pixel“

VfL Wolfsburg uses the tracking pixel by AWIN AG, Eichhornstraße 3, 107875 Berlin, Germany to be able to provide you with benefits (e.g. discount or credit)

We use the services of easy Marketing GmbH, Asselner Hellweg 124, 44319 Dortmund (<https://www.easy-m.de/>) to analyze usage data. Data processing is carried out on the basis of the legal provisions of Art. 6 para. 1 lit. f (legitimate interest) of the General Data Protection Regulation (GDPR). The concern within the meaning of the GDPR (legitimate interest) is the optimization of our online offer and our website. Easy Marketing enables us to allocate advertising successes for billing with corresponding advertising partners. When you click on an advertising integration,

A 24-digit, anonymous ID is stored in the cookie. Linked to this ID, the data is stored in encrypted form in our database on the server. It contains information about the last touch points (i.e. when a specific advertising medium was displayed or clicked on by an end device). The stored touch points can be combined into a sequence chain (user journey) if necessary. (further) Retargeting-technologies

To create needs-based advertisements VfL Wolfsburg produces pseudonymized user profiles to executed online campaigns in a way that fits its designated purpose. When pseudonymizing the data the name and other identifying criteria is replaced by an

Cookies are used for this purpose, while collecting information about your activity on the visited websites (specific surfing behaviour, visited subpages of internet offers, clicked advertising banners etc.) Most web-browsers are defaulted to automatically have all cookies accepted.

At any point you can revoke your consent to the creation of a pseudonymized user profile by adjusting your browser settings so that no or only specific cookies are enabled or so that you get notified if cookies are activated. Please note that this may result in limited usage of the available website functions.

Please see further information regarding cookies under www.vfl-wolfsburg.de/allgemeines/cookie-richtlinien/ or on the VfL Website.

2.10.3 accessible website

To provide website content that is as accessible as possible, we are working on integrating a text-to-speech tool by Readspeaker, an intonation-service for internet content. By clicking on the “read aloud” button the corresponding text will be

submitted via the User-IP to the ReadSpeaker-Server where an audio file is generated and then transferred back to the User-IP. Directly after the extradition of the File the data trail and the IP-address is deleted from the ReadSpeaker-server. ReadSpeaker does not collect and save personal data, all services are realized in Europe (Sweden).

This constitutes a legitimate interest within the meaning of Art. 6 para. 1 lit. f) GDPR.

Normally, when you access a page with embedded videos, your IP address is sent to YouTube and cookies are installed on your computer. Signalize

The "Signalize" service of etracker GmbH from Hamburg, Germany (<https://www.etracker.com>) uses a function of your Internet browser or mobile operating system to provide you with notifications, if you have activated it. Data collected for the sending of messages, which may have a personal reference, is anonymized as soon as possible and then stored exclusively as anonymous data that does not allow any conclusions to be drawn about a specific person. This data is only processed in order to deliver the notifications you have subscribed to and to make notification-related settings. We ask for your consent to store this data. The legal basis for data processing in this case is Art. 6 para. 1 lit. a GDPR. You can object to receiving notifications at any time via the settings of your browser or mobile device. [You can find](#) information on how to unsubscribe from push notifications [here](#).

In order to make the content of the push notifications meaningful for you, we use the preferences collected on the basis of an anonymous user profile using cookies and merge your notification ID with the user profile of the website solely for the purpose of sending personalized messages. The tracking technology is also used for statistical analysis of the notifications on our behalf. This makes it possible to determine whether a notification was delivered and whether it was clicked on. The data generated in this way is processed and stored exclusively in Germany.

Data processing to control the invitation to the notification service and to statistically analyze the registration or rejection is based on our legitimate interest in accordance with Art. 6 para. 1 lit. f GDPR in order to make the notification service user-friendly and effective. Here, too, the data that may allow a reference to an individual person, such as the IP address, login or device identifiers, are anonymized as early as possible. This excludes the possibility of direct personal references. No other use, merging with other data or forwarding to third parties takes place.

You can object to the data processing described above at any time by clicking on the slider. The objection has no negative consequences. If no slider is displayed, data collection has already been prevented by other blocking measures.

Our interest is to offer you a platform on which we show you current information and which enables you to send us your enquiry and us to respond to it as quickly as possible. Your enquiry is processed by means of a data processor. To the extent that we are able to do so, your data will be deleted when the fan page ceases operation.

In its ruling of 5 June 2018 (<http://curia.europa.eu/juris/document/document.jsf?text=&docid=202543&pageIndex=0&doclang=DE&mode=req&dir=&occ=first&part=1&cid=298398>) the European Court of Justice confirmed that the operator of the fan page and Facebook are joint controllers. VfL Wolfsburg concurs with this ruling and applies it to all the social media channels and fan pages it operates. Provider-specific information on data processing can be found in their respective privacy policies at:

Facebook Ireland Limited, 4 Grand Canal Square, Dublin2, Ireland, <https://de-de.facebook.com/about/privacy/update> .

VfL Wolfsburg also uses a social media management tool from another service provider on the basis of overriding legitimate interests pursuant to Art. 6 para. 1 lit. f) GDPR and an order processing contract pursuant to Art. 28 para. 3 GDPR. The tool is used at VfL Wolfsburg for the purpose of planning and writing posts for the social media channels and fan pages used, monitoring channels and fan pages, conducting market research and statistical analyses and optimizing our communication strategy on this basis. With the help of the tool, we can publish network-, platform- and channel-specific content, process user reactions, search the social networks and platforms for mentions and analyze all interactions with us and our measures.

3. further information

3.1 Data enrichment by third parties

VfL Wolfsburg reserves the right to enrich your data using service providers from the direct and geomarketing sector. Your master data will be supplemented by probability values on the basis of statistical surveys and official directories in order to be able to send you even more tailored advertising (legal basis Art. 6 para. 1 lit. f GDPR). This includes data from the areas of socio-demographics (e.g. purchasing power, age, family structure), interests (e.g. affinity for sport, affinity for bonus programs, affinity for green electricity), building information (e.g. number of households, building age, location), technology (e.g. Internet use, willingness to switch landline/Internet providers, Internet speed) or generational typology.

3.2 Automated decision-making and profiling

In principle, we do not use fully automated decision-making in accordance with Article 22 GDPR to establish and conduct the business relationship. If we use these procedures in individual cases, we will inform you of this separately if this is required by law.

We sometimes process your data automatically with the aim of evaluating certain personal aspects (profiling). For example, we use profiling in the following cases:

- Due to legal requirements, we are obliged to combat money laundering, terrorist financing and criminal offenses that endanger assets. This also involves evaluating data (e.g. in payment transactions). These measures also serve to protect you.
- We use evaluation tools to provide you with targeted information and advice on products. These enable needs-based communication and advertising, including market and opinion research; for more information, see section 2.10.4
- We use scoring to assess your creditworthiness. This involves calculating the probability that a customer will meet their payment obligations in accordance with the contract. The calculation may include, for example, income, expenditure, existing liabilities, occupation, employer, length of employment, experience from the previous business relationship, contractual repayment of previous loans and

information from credit agencies. The scoring is based on a mathematically and statistically recognized and proven procedure. The calculated score values help us to make decisions when concluding product contracts and are included in ongoing risk management.

3.3 Transfer to third countries

If we transfer your personal data to processors or other controllers in countries outside the European Economic Area (EEA) (e.g. in the USA), we implement the legally required standards and security mechanisms.

When using the services of YouTube and Google, personal data is transferred to Google LLC, 1600 Amphitheatre Parkway, Mountain View, CA 94043, USA.

When using Meta services (including Facebook, Instagram, Threads), personal data is transferred to Meta Platforms Inc. 1 Meta Way, Menlo Park, CA 94025, USA.

In the context of the use of Twitter services (including "X"), personal data is transmitted to Twitter Inc, 1355 Market Street, Suite 900, San Francisco, CA 94103, USA.

In the context of the use of Microsoft services, personal data is transmitted to Microsoft Corp. One Microsoft Way Redmond, WA 98052-7329. USA.

The US-based companies mentioned in this privacy policy have also been certified in accordance with the EU-US Data Privacy Framework (EU-US-DPF), for which the EU published an adequacy decision on July 10, 2023, e.g:

- Google LLC.

- Twitter Inc.
- Microsoft Corp.
